Junior-Senior Banquet

The Junior Class entertained the Seniors of Whitesburg High School at a beautiful banquet on Saturday night, served in the Dining Room of the Daniel Boone Hotel which was decorated with garden flowers. The young ladies were very much in the majority because so many of the young men have gone into service. David Fields presided.

Mrs. Harry I. Welcker, a former resident of our city, who moved last year to Alabama, is now visiting friends in Ravenna. She is expected here on Friday where she will visit friends. Her niece, Miss Betty Province, is a student at Whitesburg High.

Mr. W. H. Lewis made it known to us this week that in all probability he would be a candidate for State Senator from the Letcher-Perry District.

Football Field Purchased For Whitesburg Schools

On last Saturday when a lot sale of the Quillen property was being held the Letcher County Board of Education purchased 30 lots for a football field for the Whitesburg High Schools.

According to Miss Martha Jane Potter, County Superintendent, other property belonging to the County schools will be sold in order to raise the money for the field.

The purchase of the field was considered a forward move on the part of the Superintendent and the County Board and provides a place for sports and athletic activities.

A large number of other citizens purchased lots, among whom was Mr. Caleb Creech of Cumberland who purchased the old original Quillen home site. Mr. Creech is one of the largest property owners in Cumberland.

According to Mr. Sam Collins, who conducted the sale it was a success for both the standpoint of the sellers and also the purchasers. People who purchased these valuable lots could probably sell them for a profit today. This speaks well for the town of Whitesburg which already is one of the finest towns in the mountains of Eastern Kentucky.

Capt. W. W. Buckhold Is Prisoner of War

—v—

Mrs. W. W. Buckhold, formerly of Blackey, has been informed by the War Department this week that her husband, Captain W. W. Buckhold who was with the Medical Corps in the Philippines, is now a prisoner of war of the Japanese in the Philippines. It had been rumored numerous times heretofore that Captain Buckhold was a prisoner of war, but no definite word had been heard from him nor from the War Department since the fall of Corregidor on May 7, 1942, at which time he was reported missing in action. Mrs. Buckhold was informed that her husband was getting fair treatment, in good health, and that she may write to him as often as she cares, only short typed letters, and may send him packages every sixty days, thru the International Red Cross in Bern, Switzerland. Captain Buckhold is the son-in-law of Mrs. I. D. Caudill of Blackey, and will be remembered in this section as camp doctor at Seco, and as Perry County Health Director.

Mrs. Buckhold is now Pike County Health nurse, and their eight year old son is a student in Stuart Robinson School.

ATTENTION !

**MR. TAXPAYER, MR. CITIZEN;
BE NOT DECEIVED; THE TRUTH IS STRONGER THAN FICTION;
REASON IS MORE POWERFUL THAN FEAR**

You are being told that if you vote YES on prohibition in Letcher County, that we will get rid of Whiskey. No statement could be further from the truth no matter who says it. We tried this same thing in 1918, when all our boys were away from home in the Armed Service and deprived of a vote; and what did we get? We got the bootleggers, murderers, poison whiskey more abundant than ever, jake leg, blindness, drinking women, gangsterism, kidnapping, bank robbing, prostitution, and perjury beyond anything that had ever been known in the nation. At the end of prohibition in our country, we were thrown into the greatest business depression ever known in history. Banks were closed, wages shamefully low, labor working one to two days a week, mountains of food and clothes and the poor with no money to buy them. If you want more of this, heed the strange voices who have come to our County to further a racket.

You are being told that to vote YES will not raise your taxes. At present nearly 1-3 of the school teachers salaries, old age pensions, and assistance to the blind, widows, and orphans come from taxes on intoxicating beverages. Are we going to further cut the wages of our already underpaid school teachers, and let the old, the blind, the widows, and the orphans scratch for themselves? No, taxes on real estate and working men will be raised to meet this loss.

You are being told if you vote for prohibition in Letcher County, you will get rid of road houses. This claim is as vain and as false as the other, because the road house is authorized under a separate law and only the State Legislature can correct this situation.

If you believe you will get rid of whiskey by voting for prohibition in Letcher County, visit Harlan and Knott Counties and talk to the good citizens and see what they tell you, or, if you want to know for yourself, try to buy some and the only difference will be that you will pay more and there will be no tax for your County or State.

DO YOU REMEMBER UNDER PROHIBITION:

- When the churches throughout the County were surrounded by bootleggers; and services were often disturbed by drunken men?
 - When you got the news that as many as five men drunk had gone over Pine Mountain in a car and died of injuries?
 - When you heard mothers weeping after Judge Cochran in Federal Court had sentenced their husbands to five years in the Federal Penitentiary for possessing whiskey?
 - When men quit honest jobs to become bootleggers? When a jar of moonshine liquor could be found in almost every store and business man's office in the County?
 - When there were numerous bootlegging joints in every town and at every crossroad in Letcher County?
 - When hundreds of homes made and sold home brew?
 - When our Sheriff in Letcher County had 10-12 Deputies killed trying to enforce prohibition?
 - When murder was almost a weekly occurrence over whiskey in Letcher County?
 - When we had from as many as 227 indictments in a Circuit Court in Letcher County, mostly for liquor violations, while April, 1943 term of the Circuit Court we had only 32 indictments.
 - When our jail would hardly hold the prisoners, and cost the County \$700.00 to \$1200.00 per month, while the cost of the jail to the County for February, 1943, was \$212.00.
 - When men and women swore falsely over whiskey without the slightest apparent regret.
 - When bootleggers late at night knocked at your door wanting to know how much whiskey you wanted that only had 25 pounds of sugar to the barrel.
 - When Kentucky State debt was \$25,000,000.00. The State now has a surplus of \$10,000,000.00.
 - When a pint of moonshine cost \$2.50 and Red Liquor cost \$5.00 to \$10.00 per pint and the State and County got no taxes.
- Give us some plan that will get rid of whiskey and we will give our money, our efforts, our all, to help. We are just as much interested in our boys being temperate as those who are trying to impose this monster of prohibition upon us; but we feel that temperance can only be brought about by example and education, by bringing our children up in the way they should go; and when they reach manhood they will not depart therefrom.

The Eagle Flies To 1000 Boys in Service

The Mountain Eagle, we are pleased to announce, now goes to around 1000 boys in the services of our country and located in various parts of the world. Also a great number of copies reach Letcher citizens who are doing their bit by working in the defense factories.

This seems like a lot of papers going to the boys, but it really is a small number when you consider that there are around 4000 boys who have gone from this county.

Every Letcher county boy would welcome the paper which would give them more news than any letter from home could. Parents, wives, and sweethearts should see to it that their loved ones are getting not only letters from them but their County paper as well. Nothing will keep the boy informed about his home county and events of local interest like the home county paper. Many times they have a chance to locate their buddies who may be right in their own camp by reading the paper and maybe seeing a letter in the paper from him.

The Eagle has withstood several increases in the price of paper and other expenses have been greater in order to keep it flying. We are informed that we must still pay other increases in price before we can get paper. This being true we shall be forced to charge at least \$2.00 per year after June 1st. If you have someone you would like

to send the paper to you are invited to take advantage of the price during the remainder of the month of May and while the price is still \$1.50. We are sure you will be remembered longer for that \$1.50 than in any other way you could spend it.

Cincinnati Meeting Postponed

Upon advice of industry leaders the American Mining Congress has postponed the Coal Mine War Conference from May 17-18 to July 19-20, at the Netherland Plaza Hotel in Cincinnati.

This change is considered desirable in view of the fact that so many coal operating men and executives are still preoccupied with the current wage negotiations. It had been hoped that the wage situation might be cleared up by this time, but in the absence of definite developments, a postponement of the Cincinnati meeting has been deemed necessary. Reports from the field indicate that the July date will permit a larger attendance and closer attention to the business of the Conference, without the distraction existing at this time.

The new dates are the earliest at which needed hotel facilities are available. Cincinnati hotels are transferring room reservations made for the May Conference to the corresponding days in July and will hold them until June 1. It is suggested you immediately inform your hotel of your intention to be present, advising arrival date and re-

questing confirmation. Early travel reservations should also be made.

The program of the July War Conference will be essentially as announced in the May issue of Mining Congress Journal. The Program Committee is confident that the change in dates will meet with the approval of all branches of the industry and look forward to a most successful and constructive meeting.

OFFICE OF PRICE ADMINISTRATION
Local Rationing Board 69
Whitesburg, Kentucky
May 8, 1943.

Miss Martha J. Potter, Superintendent of Letcher County Schools
Whitesburg, Ky.

Dear Miss Potter:
The members of War Price and Rationing Board No. 69 wish to express to you and your teachers their appreciation and sincere thanks for the splendid cooperation you all have rendered in assisting this Board in carrying out the registration of the citizens of this County for different rationing programs.

We feel like the registration of War Ration Book II was one of the most complicated registrations we have had. However, in view of all this, your teachers and other volunteer helpers did a splendid piece of work and they are to be commended very highly. Even though a large number did this registration without pay of any kind (due to the school term having expired), they went ahead just the same.

During this period of registration for Book II there were 34,873 books issued, and, out of this number, only 11 books were unaccounted for, and we feel like these books were issued to some member of a family and the registrar failed to record them on the document register.

The total excess of coffee reported by the citizens was 5,519 pounds and the total excess cans of processed foods was 2,057 cans. This all goes to show that we still have a lot of people who value their word of honor.

With the assistance of your staff of teachers and other volunteer workers, we were able to get the books into the hands of the consumer from one to three days, thereby saving many weeks of time, while, without your assistance it would have been an almost impossible task for our office personnel to perform.

Thanking you all again, we remain,
Yours very truly,
J. D. MAGGARD,
Chief Clerk

MRS. W. P. NOLAN RECEIVES BEAUTIFUL BOUQUET

On Tuesday of this week, Mrs. John Venters of Seco, brought to The Eagle desk one of the most beautiful basket of flowers it has been our privilege of seeing in our travels throughout this life. Mrs. Venters presented them to Mrs. Nolan which was indeed a pleasant surprise and was accepted as a birthday gift of the rarest beauty. Mrs. Nolan's birthday was on May 17th.

The Poem, "Give Me The Flowers While I Live" can well be applied to Mrs. Nolan inasmuch as she has been the recipient of many beautiful bouquets from Mrs. Venters and others.

Thanks, Mrs. Venters for the lovely gift, a bouquet of poppies. They are from one who is just as lovely and who is talented in many ways. The poppies were indeed the most gorgeous color one could imagine.

CONTROL CAN DO WHAT PROHIBITION CAN'T!

THE OLD JUDGE SAYS...

"How soon do you leave for camp, Bob?"
"Next Tuesday, Judge. Bill and George are leaving the same time. We're hoping to wind up in a tank outfit."
"Well, the way I've seen you handle a tractor, Bob, you ought to be right at home in one of those tanks. You're going to like the service—they're a great bunch of fellows. Just last week I went down to camp to see a young nephew of mine and he introduced me to some of his buddies. Fine fellows—real he-men just like you and Bill and George—from good American homes. Handle themselves well, too."
"You know, I've been checking up on it, Bob, and I've found out that the American army today is healthier, better disciplined, better trained, better taken care of than it has ever been in its history. And you can take my word for it, Mary, he'll come back to you a fine man in great shape. Best of luck to you, Bob."

Puerto Rico Radio Program Honoring Kentuckians

AATF HQ, Puerto Rico, May 17—Kentucky's colonels, corporals, caverns and corn were lauded in song and story on the Antilles Air Task Force's "48-Gun Salute" radio program broadcast from Puerto Rico.

The program was one in a weekly series which draws its name from the military custom of firing one salute for each state in the union on Independence Day.

With Air Corps soldiers presenting skits about historical facts, scenic spots and colorful events, men from the Bluegrass state were given a panoramic picture of their home state.

An imaginary excursion took the radio audience to the famous Wilderness Trail and Pilot Knob of Daniel Boone fame; into the Cumberlands and through the Harlan coal mines and into Pineville and Barboursville.

Skits were presented on the Derby, the conversion of a large part of Kentucky's forty-two million gallon liquor production to a nitro glycerine base for the war effort as well as the fact that the state subscribes to more war bonds and has more volunteers in the armed forces than any other state.

Also featured on the program were the famous homes of Henry Clay at Ashland; Fairview, where Jefferson Davis spent his boyhood; the log cabin at Hodgenville, where Lincoln was born; and the Old Kentucky Home at Bardonia where Stephen Foster received inspiration for his undying song. The Mammoth cave near Morgantown and the Echo river were also cited as well as the fact that the Lexington Herald has never had to print a free edition to maintain a boast that a Kentucky-bred horse wins a race every day.

Read during the broadcast was an Irvin S. Cobb narrative about his town of Paducah and other towns mentioned included Bowling Green, Elkhart, Fort Knox and Louisville. Tribute was paid to the colleges, including the state university, Centre and Union. Transcriptions of the broadcast will be sent to other army bases for rebroadcast.

Recipe of the Week

Hurry-up meals seem necessary these days with the Victory Garden and baby chicks taking hours of time. Even so, meals must be well balanced if they are to provide the necessary strength and build-up every worker needs, say food specialists at the Kentucky College of Agriculture and Home Economics.

It's planning ahead of time, and doing part of the preparation before going to the garden, if need be, that results in the most satisfying meals. In the following, the dessert supplies an important part of the protein of the meal and is refreshing as well, when it is served cold.

Menu: Hash (meat, potatoes

and onion), creamed asparagus, lettuce salad, corn sticks and butter, floating island.

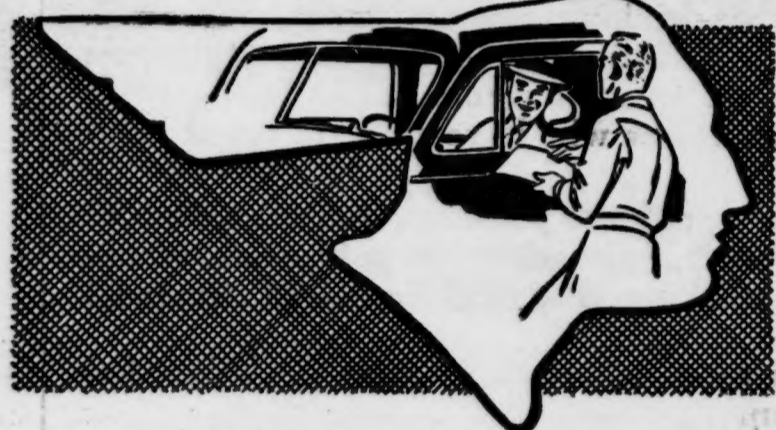

FLOATING ISLAND

2 c. hot milk
3 egg yolks
1-8 tsp. salt
1-4 c. sugar, honey or syrup
1-2 tsp. vanilla

Beat the egg yolks, add sweetener, salt, hot milk and flavoring. Place in double boiler and cook until mixture coats the spoon. Make a morning by beating 3 egg whites, to which is added gradually 1-3 cup of sugar, 1 cup blackberries or other canned fruit put through a strainer or sieve, and 1-2 teaspoonful of salt. Continue beating until stiff. Chill and serve on the custard.

Stuart Robinson School News

Misses Mary L. Ervin and Jennie Lee Crafton were dinner guests of Mrs. Jim Whitaker and Miss Maywood Whitaker in Blackey last Wednesday evening, and enjoyed their visit very much. It is always a real pleasure to be in this home.

On Sunday evening Dr. and Mrs. B. C. Bach, of Whitesburg, Rev. and Mrs. William Brown and Mr. and Mrs. W. W. Reeves, of Hazard, and Rev. Charles S. Spencer, of Blackey were guests of the school at dinner at the evening hour, and we greatly enjoyed having all these friends with us. Rev. William Brown delivered the baccalaureate sermon, the services beginning at eight o'clock. His message was a splendid one.

Mrs. Lucy F. Dunlap suffered from a rather severe case of flu during the week, which prevented her attending the commencement exercises, much to her disappointment.

Even though school is closing this week, we still plan to have picture shows in the auditorium every Thursday evening, as usual.

Most of our faculty members returned to their homes, or made visits to friends and relatives immediately after commencement, but of course it is necessary that a few remain on the campus to attend to parts of the work which do not stop for vacation. Mr. and Mrs. T. S. Moore and their two little sons visited relatives in Tazewell, Virginia for several days, but returned in time to attend the graduation exercises on Tuesday evening, and will be on the campus for the summer. Also the Cooper and Croucher families are "steady stayers". Misses Hattie Lee Faires and Jennie Lee Crafton expect to remain through Young People's Conference, which meets here May 31-June 5.

Millions of such partings and heartaches ... as the youthful and courageous American Spirit moves with young men like this to other shores to defend Liberty against the Dictator.

Our forefathers, too, fired with the American Spirit of Freedom, rebelled against the Dictator and the Tyrant. Under the government they established, the growth of our Nation has been the envy of the world. Here the ordinary man and his family enjoy comforts not known to Kings of other times.

Here—under the stimulation of Free Enterprise—science, research and invention give promise of greater achievement and richer blessings than have ever been dreamed of heretofore.

Here we can live as we choose subject only to reasonable rules which we ourselves make ... here in America our precious sons, whether from humble cabins or wealthy homes, may be rewarded for superior merit or ability, and reach high places in government or industry.

It is for the preservation of our forefathers' government—for Liberty—for Freedom of Enterprise—for the American Spirit, that our sons now fight.

American railroads are a development of Free Enterprise and the American Spirit. They are privately owned and operated. They had an important part in welding the several States into a unified country, with a common language, high purpose and unmatched development. They are unsurpassed in their war effort.

The Louisville & Nashville Railroad, "The Old Reliable," is proud of the part that its half-billion dollar investment and its 31,000 employees are now contributing to winning the war. When the war is over, its efforts will be renewed to serve the public acceptably and to advance the inevitable development of the South.

"THEM GREMLINS" ARE BAD, PESKY PRANKSTERS... BUT THEY'RE JUST PANTY-WAIST PIKERS COMPARED TO THE "FATEEG-A-JEEBIES".

By ARTHUR MCGRIN
What! You don't know of "Them Gremlins"—also Pixies and Wiggles? They're in the headlines; read about 'em in Collier's, Time, other magazines and newspapers. R.A.P. and U.S. pilots can tell you plenty.

Gremlins are just one of many kinds of "little people"—some good; some bad; some good and bad. The folklore of England, Scotland and Ireland drips with 'em... banshees, pixies, telegoats, etc.

An ancient Scotch legend explains Gremlins. A wicked laird hanged innocent people, buried them standing up. Their spirits escaped

in the form of midget beings to haunt and plague humanity. You can laugh, but you'd better not. Gremlins resent it and retaliate.

Recent press reports about Gremlins have created a flood of comment and letters to editors; weird tales of dozens of kinds of "little people" are cropping up right and left. Mysterious specie in the U.S.A.; long existent, but just discovered, are the "Fateeg-a-Jeebies." They're really tough.

"Fateeg-a-Jeebies," say reporters, are "mite-men, but mighty... some say 'termitey'." They enjoy

good mean fun. They prey only upon human beings... snipe at morale. Their most potent weapons are hunger, thirst, and fatigue. Danger! Beware of "Fateeg-a-Jeebies"... they'll get ya if ya don't watch out.

CLUES TO HELP YOU APPREHEND THE GUILTY CULPRITS

IF—your work bores you... if memory fails... if you make mistakes... if your "innards" brood like a guilty conscience... if you're restless and fidgety... if you feel low-spirited... suffer countless irritations, likely it's the Fateeg-A-Jeebies.

IF—your machine jams... if you bust your best tire... if your cake "falls"... if your zipper sticks... if your books won't balance... if a series of little misfortunes beset you... then most likely it's the Fateeg-A-Jeebies.

FATEEG-A-JEEBIES

"Fateeg-A-Jeebies"—an alias for hunger, thirst, and fatigue. A cold, sparkling Dr. Pepper is your best bet to beat 'em. Dr. Pepper is a liquid bite-to-eat; a quick-acting pepper-upper. Help yourself to keep bright, alert, and snappy. There's taste delight and keen satisfaction in every luscious swallow. Rush to the cooler, or soda fountain, daily at 10, 2 and 4. Dr. Pepper is rationed, yes; but it's still 5c... still worth searching to find.

National Hospital
Day Observed

Wednesday, May 12th, was National Hospital Day, and the Jenkins Hospital, Jenkins, Kentucky, observed this day along with other hospitals throughout our Country.

Did you visit your hospital? This year, more so than last year, you should have visited your hospital and seen for yourself the arrangements, equipment, and service at your disposal in time of need.

The Jenkins Hospital was open for inspection to the public from 10:00 A. M. to 4:00 P. M. Various groups of school classes were guests and were escorted through the Hospital by the various doctors and nurses on duty. This tour of inspection included visits to the Laboratory, Diathermy Room, Cast Room, Kitchen, X-Ray Room, Out Patient Department, Men's Wards, Business Office, Operating Room, Nurses Office, Private Rooms, Women's Wards, and Nursery.

The Business Office registered each guest, who was presented with a red, white and blue card stating, "I visited the Jenkins Hospital Today which is National Hospital Day."

All guests were welcome, and the visitors were impressed with the cleanliness and floral decorations on display.

The Jenkins Hospital is accredited by the American College of Surgeons, and is modern, up-to-date, and fully equipped. One of the most interesting features offered to the public on Hospital Day was the visiting of the Chart Room, where hospital records are preserved for your and your doctor's use in later years. Our filing system enables us to give your doctor your complete hospital record in a very few minutes.

In visiting our Business Office and our Business Manager, Mr. Ivan Mullins, you learned how you can arrange your account to enable you to pay as you are able and still have that needed attention. Ask about our Hospitalization plan, open to both employees and non-employees of our Company.

Another interesting feature was the discussion for the New Delivery Room to be added to our Hospital to care for expectant mothers who need the very best of care and attention.

The Jenkins Hospital thanks all their guests for accepting their invitation to visit our hospital and extends invitations for our next National Hospital Day.

Chief Clerk,

Clean the brooder house thoroughly, using a shovel, scraper and broom. If it's real dirty, scrub it out. Then disinfect.

Start your stove 3 days before chicks come. Hang thermometer 6 inches from stove, 2 inches from floor. Start brooder at 90° F.

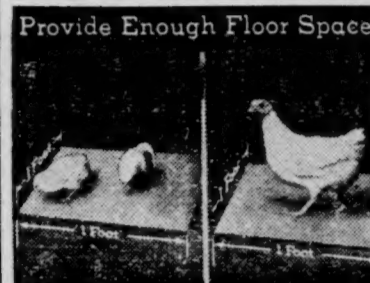

Provide good litter. Good litters are peat moss, clean straw, shredded cane, wood shavings or ground cobs. Use enough of it.

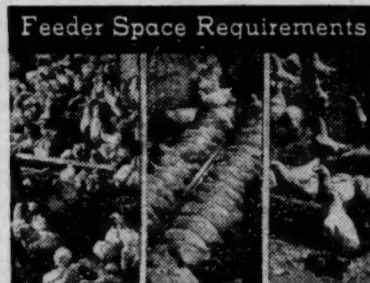

Cover litter with three or four layers of newspaper to keep chicks from eating the litter. Roll off a layer of paper each day.

Move the guards out 6 to 8 inches per day to make more room for the chicks. Leave outer corners to keep birds from huddling.

Drop the temperature one degree a day. At 15 days the temperature should be 75 degrees. Hold it there.

Keep starting mash hoppers full during the first 3 days for easy eating. Then keep only two-thirds full to save feed.

To help your baby chicks get started on feed, put three or four handfuls of chick starting feed on paper for the first 2 days.

THE BIRDS—OUR ALLIES

More than ever before, the birds have come to visit us and raise their families here. I have seen quite a number of robins, two kinds of red birds, starlings, thrushes, cat-birds, wrens, speckled breasted birds, blue birds, meadow-larks, quail, blackbirds and large flocks of strange little birds and several yellow birds.

These birds are our allies. They feed largely upon pests that destroy our vegetables and fruits. So it behooves us to be kind to them, welcome them to our homes for they love people and like to build their nests close to our homes.

It is a crime to kill them. It is a bad, naughty boy who is unkind to them and if he kills them he is aiding the Japs and Germans. Let us raise all the vegetables and fruits we can with the aid of these faithful allies—the birds.

NEWS in the WORLD of RELIGION

BY W.W. REID

An army chaplain serving with the infantry in New Caledonia says: "Out here we find the Christian religion the closest tie we have with our strange neighbors. The work done by missionaries in the past years has borne fruit in Christian character. People of various races find that they are one with us American soldiers in the same loyalty to Christ and the great human ideals of justice and liberty which rest on Christian truth. We should support missions for those whose lives are freed from darkness and despair by the light of the Christian Gospel. And it will not hurt us to know that the same mission work has paved a way for us here in New Caledonia, having created a spirit of sympathy and understanding. None of my sturdy men will ever say, 'I don't believe in missions.'"

"Religion in the home is necessary if we are to continue in our democratic way of life," says J. Edgar Hoover, director of the Federal Bureau of Investigation. "We are united as never before in our condemnation of the Spartan theories inculcated into the German nation by the Nazi Party under Adolf Hitler. Hitler has attempted to destroy the home life and re-

ligion of the German people by removing their boys and girls from the home at an early age, training them as children of the state. No nation can stand which seeks to destroy the home in this manner, the home which is the very foundation of its existence. Too many homes in America are broken. Divorce, crime, and bad example have made irreparable inroads. If our nation is to stand as strong in the future as she stands at the present time, we must each give to the utmost of our energy, our time, and our money. But, in addition, we have the added responsibility to not forsake for a moment the maintenance of the integrity of the family, for there lies the strength of America."

Five community churches of the City of Buffalo and one each in Hamburg, Castile, Reading Center, and Rochester, N. Y., comprising the Council of Community Churches of Western New York have voted to join themselves to the Western New York Association of Congregational Christian Churches, one of the oldest church bodies in the United States. "Through affiliation with this Church, with its historic traditions of more than a century and a half, and with its liberal interpretation of theology and creed, we believe we will be able to add something vital to this fellowship," says Dr. W. T. S. Culp of Buffalo. The Congregational Christian Churches will ordain theological students planning to serve community churches, while their pension privileges and voting privileges will be the same, and their mission work will be in the same fields. It is believed that this union foreshadows a breaking away from the non-denominational community church trend of recent years.

Jenkins Baptist Church Notes

Sunday morning Rev. N. L. Whitesburg, occupied the pulpit of the First Baptist Church at Jenkins and brought the message of the morning.

At the evening service a very spiritual and attractive program was arranged by Mrs. V. C. Cantrelle and was rendered by the Girls. The Training Union program was an interesting and reading. Miss trice Sizemore led the girls into each song by a descriptive reading, and the all-girl choir sang: "The Church in the Wilderness," "The Old Rugged Cross," "Does Jesus Care," "Let Jesus Come Into Your Heart," "For You I Am Praying," "Christ Receiveth Sinful Men," "Ye Must Be Born Again," "There is a Fountain Filled With Blood," "Just As I Am Without One Plea," "Only a Sinner Saved By Grace," "Living For Jesus," and their final message in song was, "God Be With You Till We Meet Again." Mrs. Cantrelle was at the piano for the program and the meeting was dismissed with prayer by Rev. R. P. Ringo.

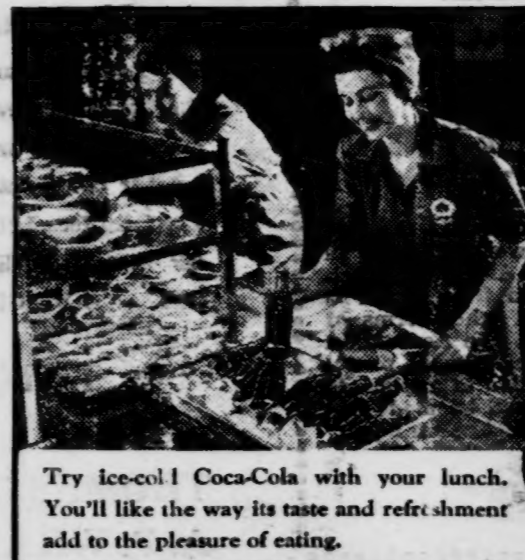

The following girls composed the choir: Jay Gale Arrington, soloist, Norma Dotson, Johnnie Arrington, Margaret Yates, Dorsey Elkins, Norma Rowlett, Lucille Sanders, Deurene Hall and Odrey Sizemore. These girls sang the parts in a very pleasing and harmonious manner and with a fine spiritual atmosphere. Next Sunday morning the Baptist Church will give away for the Jenkins Independent school High School Baccalaureate service at the Methodist Church and these girls will render this same program at the evening service. Don't fail to hear them.

The rest-pause that refreshes
Welcome in peace...
more welcome in war work

ASK plant managers what a rest-pause means to workers in war production . . . more work-contentment. And contentment increases output. Add refreshment to a rest-pause and the feeling of contentment is increased. That's a reason why you find ice-cold Coca-Cola so welcome in war plants.

Ice-cold Coca-Cola goes beyond just quenching thirst to bring you refreshment. Its delicious goodness always delights your taste. Here is a drink made with a finished art, quality you count on. The only thing like Coca-Cola is Coca-Cola, itself.

Letters from plant managers from coast to coast emphasize that the little moment for an ice-cold Coca-Cola means a lot to workers in war plants. It's a refreshing moment on the sunny side of things . . . a way to turn to refreshment without turning from work.

Try ice-cold Coca-Cola with your lunch. You'll like the way its taste and refreshment add to the pleasure of eating.

BREAD AND MILK—OR BOOZE

The Same Dollar Cannot Buy Both

Consumption of milk in the U. S. has been from 100 to 200 million gallons LESS annually since repeal than it was during Prohibition, according to reports by the Department of Agriculture. The per capita consumption is from two to four gallons LESS. To feed the extra cows to produce the increased milk under Prohibition, it required 74,000,000 bushels of grain, which is 41,000,000 more bushels than the liquor business used in 1936. Money spent for liquor has NOT BEEN spent for bread since repeal. Government figures show that there has been an ANNUAL average reduction of 78,337,000 bushels of wheat USED FOR BREAD.

Has it ever made a life Purer, Nobler or Happier? Has it Ever made a better Citizen? Has it Ever contributed to the Peace of any Family or Community?

If you vote to license the sale of liquor in Letcher County, you thereby vote for all the damage and degradation and evils that it brings to our people. If you vote to license liquor, you vote to fulfill what was said in McGuffey's reader in 1836, more than one hundred years ago, and is true today:

"Licensed to do thy neighbor harm,
Licensed—to kindle hate and strife,
Licensed—to nerve the robber's arm;
Licensed—to whet the murderer's knife;
Licensed—like spider for a fly,
To spread thy nets for man, thy prey;
To mock his struggles, crush his soul,
Then cast his worthless form away."

Liquor dens, beer joints and road houses are far more disgraceful than the old saloon. The people grew tired and disgusted with the stench of the old saloon—they are sick of the present methods of disposal. LETCHER COUNTY IS CALLING A HALT! VOTE YES!

IF YOU VOTE FOR LIQUOR

WHO IS GOING TO DRINK IT?

The liquor traffic MUST have ONE OUT OF EVERY THREE BOYS AND GIRLS as NEW drinkers EVERY year to take the place of those dying from alcoholism. Some men claim they do not drink but will vote for liquor "so the other fellow can have it." WHO IS THIS OTHER FELLOW? Is it their son—their daughter—the man who marries their daughter—the hired help—their bus driver—the friend who is driving the car which they are riding. Remember friends! If you vote to keep liquor in Letcher County SOMEBODY MUST DRINK IT if the liquor dealers and the brewers continue to make money. If you MUST vote for liquor WHY NOT BE FAIR AND DRINK IT YOURSELF?

Letcher County Challenges The Liquor Dealers

TO PROVE THEIR STATEMENTS AND STICK TO FACTS ABOUT THEIR BUSINESS!

WHAT DOES LIQUOR PROTECT?
CAN YOU NAME A SINGLE PERSON
IT HAS HELPED.

Does liquor protect the good names of the citizens of Letcher County? Do drunk drivers protect human lives and property? Does liquor protect the fair names of the widows and orphans, whose husbands and fathers have spent every dime for drink, then died from the effects? Does it protect the boys and girls of this county from the temptation of drink and ruin many of them for life? Does it protect the earnings of a man who labors for the support of his wife and children? Does it protect the physical strength, stamina and courage of the young men of this country. Look around you. Count up the number of men who have lost their farm, their business, their job because of drink. Pick out the boy or the girl you want to see drink this poison slop, then vote for liquor IF YOU CAN.

IF YOU MUST VOTE FOR LIQUOR
—BE FAIR—DRINK IT YOURSELF.

High taxes on liquor MULTIPLY Bootleggers. The legal stores in wet counties provide an outlet for their wares, Jos. H. Choat, former chief of the Federal Alcoholic Administration stated 4 years ago that ONE HALF OF ALL LIQUOR SOLD IN THE U. S. WAS ILLEGAL LIQUOR. Bootleggers are literally over-running the nation. The U. S. has started using planes to run them down. It is now costing the U. S. \$632,000.00 per year MORE to fight bootleggers SINCE REPEAL than the average cost of enforcing prohibition. In wet Nelson County with 17 legal distilleries, a gigantic illicit still was captured last fall. IN ONE SINGLE DAY in the U. S. Court at Paducah, 48 bootleggers were sentenced to federal prisons. In wet Princeton during July and August, 1937, out of 60 arrests for drunkenness, 58 were drunk on bootleg liquor according to the evidence. Rowan County voted wet. A short time later two men were killed on poison liquor and later nine illicit distillers were arrested.

TO WHOM IT MAY CONCERN:

The attention of this office has been called to the fact that certain interest are stating that the "wet-dry" issue in various counties is connected with Old Age Assistance. Such a statement is false. The revenue derived from liquor is paid into the State General Fund like all other forms of revenue, and are not "ear-marked" for Old Age Assistance. No discrimination is made in this office in regards to religion, race, color, creed, or political affiliation of applicants for Old Age Assistance. Therefore, none will be made because of their attitude toward local option election on liquor.

WHO WANTS TO KEEP
LETCHER COUNTY WET?

The brewers and distillers of Louisville, New York and Cincinnati along with the local liquor dealers who are making the money out of the business and can afford to spend thousands of dollars in an attempt to keep Letcher County in the clutches of the traffic by intimidating and deceiving the voters. IT IS THE SAME OLD SALOON OUTFIT!

DON'T BE DECEIVED?

No Liquor Revenue Is Lost To Letcher County

Dry Letcher County will receive her full share of the \$9,137,255.20 pouring into the State's general fund from the 7 breweries, 200 wholesale liquor distributors and 4,500 beer and whiskey saloons over the State. The ONLY State revenue Letcher County will lose amounts to LESS THAN TWO CENTS PER PERSON. The local fees Letcher County will lose HAS NEVER PAID FOR TAKING CARE OF THE DRUNKS. THE LIQUOR TRAFFIC
DOES NOT PAY ITS OWN DAM-
AGE SO THE TAXPAYERS PAY
THE BILL

G-Man J. Edgar Hoover stated that last year our crime bill was fifteen billion dollars—\$10.00 per month for every man, woman and child. The New York Liquor Commission states in their book "The Effects of Alcohol" that nearly one-half of all crime is CAUSED BY ALCOHOL. The liquor traffic makes the money. The people pay THE BILLS. Five years ago, Mayor Scholtz of Louisville appeared before the legislative council in Frankfort and appealed for more liquor tax because Louisville was losing money taking care of the product of drink. "Costs," declared the mayor, "have increased steadily, outlays being greater from year to year for the keep of prisoners, their medical care and for the care of dependents of liquor addicts." And NO WONDER. In 1929, the peak of Prohibition, Louisville had 2,155 arrests for drunkenness. In 1937 it had a total of 12,200 ARRESTS FOR DRUNKENNESS and 4,000 of these were boys and girls under age. THAT'S WHAT REPEAL HAS DONE.

The circuit judges of this state declare that 80 to 90 per cent of their criminal cases are caused by drink. "G-Man" Hoover declared in 1937 that the past three years have been the most terrible years in the crime history of America. IF THE LIQUOR BUSINESS HAD TO PAY FOR THE DAMAGE IT CREATES, IT WOULD BANKRUPT ITS BUSINESS SO THAT TAXPAYERS PAY THE BILL.

NOW IS OUR CHANCE TO BANISH LIQUOR FROM LETCHER COUNTY
IF WE FAIL we cannot vote again for three long DANGEROUS years.

Letters From Our Boys In The Army

The Editor,
The Mountain Eagle,
Whitesburg, Ky.

Dear Sir:

I wish to express my deep gratitude to the staff of the Mountain Eagle for their thoughtfulness and cooperation in seeing that your paper has been delivered to me regularly.

I requested that The Eagle be sent to me some six months ago and very promptly my name was on the mailing list and I have been receiving my copies regularly since then.

The hometown paper means a great deal to a fellow who is so many miles from the home and surroundings he loves so dearly. Whitesburg isn't actually my home town, or hasn't been for the past three years but I lived there for a good many years, went to high school there and have many friends there so I still consider it my hometown.

Out here in the Pacific, the things which one usually takes for granted when you are home, takes on a great deal more significance. To read about the people at home, the things they are doing, their efforts toward winning the war and just the general news from home, is very pleasing.

I will close hoping my supply of good old Mountain Eagles continue on a regular schedule.

An appreciative reader,

Dear Mr. and Mrs. Nolan:

May is just around the corner and yesterday your November 19th issue of the Eagle arrived at this Indian Post. "Betcha think I'm gonna say it was too late getting here?" Not on your life! It's news from home, isn't it? News I would otherwise have missed. (To be perfectly frank, I have received some later copies. January issues). Just as long as they come thru I'm not kicking. And thanks a million for getting them thru.

What's it like here? Tell you when I return. You wouldn't believe me anyway. I have practically gone native tho and that is saying a lot. Have been here since before time began, or so it seems. You see I left the States before Pearl Harbor, and DO the years pass slowly?

Remember way back in '40 when only a handful of us were taken into the army? Your paper today makes us seem like antiques. Hasn't everybody and his brother gone into the services now? And how do so many of them rate Commissions? (Really proud to know that so many of the local boys are being so recognized, yet I can't help thinking how fortunate they were in not being called up so soon). Is this beefing? Don't you know by now that this is typical of a soldier, and that's all I am anymore. I'd hate to find myself behind a desk in a schoolroom now. I can imagine only too well what would happen.

I'll let you in on this much. I haven't seen a white girl in months. The local belles are rather dusky (and the guy who glamorized them was just trying to get even with someone). They are rather funny in their native undress. (I'm not in the land of veils anymore). I had a little trouble speaking the language when I first got here. I don't anymore for I have given up trying. Kipling knew what he was talking about: "The East is East . . . you know".

I had some friends when I left there. Would like to check up on how many remember me by having you publish this. Will you? Really tho, I receive letters from lots of the folk, and I'm only kidding. How about a million letters folks? I don't need to tell you how much they would do for a guy who hasn't seen (our kind of folk) for so long. What think about it?

Good luck to you and all who may read this. Keep the home fires burning and we'll do the rest.

Sincerely,

Dear Friends of Letcher Co.:
I am a native of Letcher County and I'm very enthusiastic about my life and I want my good old friends in Letcher to know about it.

I like the Army fine, I was drafted Dec. 2, 1942 and we're all wondering just when we're going to get our chance at those dirty Japs.

We lie around in bed every morning until at least 6:00 A. M. This gives us plenty of time, to get washed, dressed and make our bunks and etc., by 6:10. After we are reasonably chilled, we grope our way in the darkness to

the mess hall. Here we have a hearty breakfast consisting of an unidentified liquid, and a choice of white bread or rye crust.

After gorging ourselves with this delicious repast, we waddle our way, back to the barracks. Then we have nothing to do until 7:30, so we just sit around and scrub and mop floors, wash windows and pick up all match sticks and cigarette butts within a radius of 2000 feet of the barracks.

Soon the Sergeant comes in and says, "Come out in the sunshine kiddies." So we go out and bask in the wonderful Mississippi mud.

To limber up we do a few simple tricks, such as touching your toes with both feet off the ground, and grabbing yourself by the hair and holding yourself at arm's length, and then out for a 4 mile hike.

At 8 A. M., we put our light packs on and go for a tramp in the hills. The light pack consists of a gun, bayonet, canteen, fork, knife, spoon, meat can, cup, shaving kit, pup tent, rain coat, cartridge belt, first aid kit, fire extinguisher, tent pins, rope, tent poles, hand axe, small spade, and a few other small items.

Carrying my light pack, I weigh 258 pounds. I weighed only 172 lbs. when I left home, so you can see how easy it is to gain weight in the Army.

An observation car follows us as we climb the hills and picks up the fellows who faint.

The boys who fall out in the mountain climbing are treated very well. They are given six months in the guard house but they don't have to face court martial.

At 12:00 those who can, limp into the Infirmary.

At the Infirmary, patients are divided into two classes. Those who have Athlete's foot, and those who have

colds. If you have a cold, you have your throat swabbed with iodine. If you have athlete's foot, you get your feet swabbed with iodine.

Anyone who claims he has neither athlete's foot or a cold, he is sent to the guardhouse for impersonating an officer. I am very popular in the infirmary: I told them I had both a cold and athlete's foot, but what I really have is "Gastric Ulcers", but I know when to keep my mouth shut.

Well, I must ring off as I hear the call to "chow." You see tonight we're having hominy for supper, and I don't want to lose out on a treat like that. "Hominy" oh boy!

Definition for Hominy: "French Fried Mothballs."

No kidding fellows, Army life is good, so hurry up and come on, we'll be waiting.

Dear Editor:

We are two boys from Letcher County, haven't been in service very long. We would like to use your paper to say hello to our friends, mothers and fathers back home.

When I was back home I enjoyed reading The Eagle. I would be much pleased if you would send me the paper.

There are several boys here with me from Letcher County and I know they would like to read the news from back home.

I get letters from Letcher County boys all over the United States and from over seas. They all say the Kentucky boys make the best soldiers.

I have been in service for about three months and have been in four different camps and I haven't found a one yet that I like as I do in Kentucky. Some are too dry and some are too wet and here it is too hot.

I have had the pleasure of

seeing much scenery. I have been aboard a ship. I took a ride in a boat and car combined today, it is good for land and water both. I had the fun to drive it in the water, the waves sure did give us a good ride.

I have a brother in the Navy he is stationed in Africa. I have many more boy friends over there.

Sincerely yours,
Pvt. Jonah Caudill,
Buford Elam.

Baccalaureate Service

A crowd which filled to capacity the main auditorium and balcony of the First Baptist Church assembled last Sunday night to hear the Baccalaureate Sermon for the Class of '43 of Whitesburg High School. The service opened promptly at eight o'clock with the processional, played by Mrs. Albert Jones at the piano. The procession was led by Prof. Curtis J. Reed and the pastors of the local churches. They were followed by the members of the class, who were escorted to their seats in the front of the middle section of pews by ushers from the Class of '44. Rev. K. E. Hill of the Methodist Church led in the prayer of invocation.

The sermon was preached by Rev. Joe T. Sudduth of the Graham Memorial Presbyterian Church, who chose as his subject, "The Way to Life". The text was from St. Matthew's Gospel, the account of the coming of the rich young ruler to Jesus with the question, "What good thing must I do to have eternal life?" (Matt. 19:16). The speaker defined eternal life as "life at its best and highest; success, in the highest meaning of that term; happiness in its true sense; life as God intends it should be. Eternal life begins in this world, makes this earthly life full of meaning, and purpose, and, at what we call death, reaches out and takes the hand of God to live with him for ever and ever". The speaker maintained that this is the thing that we all really want, although we may not always be conscious of the fact, and pointed out in the course of the sermon the threefold way to eternal life as found in Jesus' reply to the rich young ruler. This was stated; as, (1) The keeping of the moral law, (2) Living for men and their needs rather than for material wealth, and (3) Coming into a personal faith in Jesus Christ as Lord and Saviour. This personal relationship to the living Christ was emphasized as a source of strength for these trying times which we are facing today.

Special music was rendered by the High School Glee Club, under the direction of Mrs. Albert Jones. Prof. Reed made announcement of the Commencement activities for this week. Rev. L. O. Griffith, the pastor of the host church, led in the closing prayer and pronounced the benediction.

In reply to the Japanese execution of captured American fliers the Treasury Department has issued the poster pictured above, giving America's answer to the atrocity. It shows clearly how Japan misjudged her opponent in hoping to intimidate the American nation.

PROHIBITION DOES PROHIBIT

74 Counties Have Voted Dry - Only 2 Voted Back Wet

After a County has been Dry for three years, if they are not satisfied with Local Option they may vote again to determine whether they want to remain Dry. During the past seven years 74 COUNTIES HAVE VOTED DRY. ONLY TWO voted back wet--Montgomery and Clark, both by small majorities. Flemming County voted again but decided to remain Dry by OVER 2000 MAJORITY. What better proof do you want than PROHIBITION PROHIBITS.

IF YOU WANT MORE PROOF READ THESE LETTERS.

Burkesville, Ky.,
(Cumberland County)
September 26, 1941.

We, the undersigned, testify that it is far better to have counties under Local Option Laws than for them to have alcohol as a beverage sold in their boundaries. It has been our experience in this county that less drinking and lawlessness has been done since Local Option Law has been put in effect.

Signed,
MRS. STANLEY D. PACE,
Sheriff Cumberland Co.

FROM REV. JAMES R. THOMPSON, PASTOR CARLISLE BAPTIST CHURCH.

"In the four months before we voted dry there were 38 arrests in the city and county for drunkenness and since then in the four months, Dec. Jan., Feb., and March, there have been 12 arrests for drunkenness.

Our jail has been empty a

month and stays that way almost all the time now.

Everyone agrees that our town is better.

April 12, 1943.

For eight years I have been the regular presiding Judge of the 28th Judicial District, composed of the counties of Rockcastle, Pulaski, Wayne, and Clinton. Previous to that time I was Commonwealth's Attorney for six years in the same district. I have had an opportunity, therefore, as a public official to see the liquor business when it was being sold legally in the district and since we have had local option. In the first year of local option murders decreased 50 per cent in this district, and they have continued to decrease. Crime of every kind has decreased. The number of prosecutions for drunkenness in the four counties under local option is less than half of what it was un-

der licensed liquor.

Local option has worked wonders in these four counties.

Sincerely yours,

J. S. SANDUSKY,
Judge 28th Judicial District of Kentucky.

We have been in office most four years and when we came in we had Dispensary sales and since it went out we can say that we have had less trouble than we had with the Dispensary, by a great percent. We have no road houses.

How Is This From Mercer and Garrard Counties

HARRODSBURG

We, the undersigned, business men of Harrodsburg and Mercer County, Kentucky believe and are willing to go on record as stating that the business aspect of our community has been improved by the removal of the sale of intoxicating liquor from our town and county. We see those who are inclined to indulge in intoxicating liquor, now investing their earnings in the necessities of life rather than liquor. They by this reformation have become good patrons of grocery stores and stores selling other merchandise, and regular depositors in our banks.

The principal business we lost was the liquor business, but in its stead we have better citizens, more home owners and bigger bank accounts, our grocery stores have a more dependable business, and other merchandise is now meeting a more ready sale. Our citizenship is more enterprising, labor more dependable and our community has been raised to a higher standard morally.

The voters of Mercer County were among the very first to vote liquor out under the old Local Option Law, and, again under the local option law passed in 1936 it was one of the first to adopt it. The vote was 3 to 1 against the liquor traffic and we believe if the question was raised anew the dries are still in the great majority.

SOME STARTLING FACTS FOR THE LIQUOR OUTFIT ON DRY HARDIN COUNTY. THE HIGH POINTS FROM A LETTER WRITTEN BY REV. W. FRED KENDALL after six months of prohibition:

"Taxes in Elizabethtown lowered 5c on the dollar—public drunkenness practically gone—on week ends when the county was wet, as high as fifty drunken soldiers were on the streets—no more drunken soldiers now—the Military police office has been moved from Elizabethtown—last two weeks in April no arrests for any cause were made, compared to 59 in ONE day last August when liquor joints were open—drunken fights and wild parties are a thing of the past and prostitution has all but disappeared."

A Few More Just For Good Measure

Testimonials of business men, law officers and others in dry counties. Hundreds are on file but space forbids quoting only a few.

MENIFEE COUNTY—"County officers signed statements saying cases in court decreased as much as 75 per cent."

CARTER COUNTY—"Less bootlegging and drunkenness and safe for our boys and

girls."

ELLIOTT COUNTY—"It doesn't seem like the same place."

OWEN COUNTY—"We are surrounded by wet counties, but conditions are so much better, it is not the same place."

ALLEN COUNTY—Scotts-

ville Chief of Police says: "I have very little to do since

we voted liquor out."

POWELL COUNTY—"About 75 percent improvement."

METCALF COUNTY—"100 percent improvement. I was County Judge during liquor and I am in a position to know."

72 Counties are now Dry—and all are satisfied.

Kentucky is going dry faster than any other state in the Union, excluding all intoxicating liquor above one per cent.

Let's vote Letcher County Dry May 31, and make it the 73rd. Dry County in this steady march toward a dry Kentucky. To Vote Dry, vote "YES".
